✓ Experience Across Fintech, Trading, Beauty, AI Sports Technology & Consumer Apps

WHO IS CHARLES JIKEME?

Most people scroll.

I study why they stop.

While pursuing a Nursing degree at the University of Port Harcourt, I have spent the last few years studying attention, audience behaviour, and the psychology behind content that captures interest.

What started as curiosity quickly evolved into a practical skill that has allowed me to work with startup founders across multiple countries, helping brands increase visibility, engagement, and audience growth.

Today, I help startups and growing brands attract attention through audience-focused content strategies, trend adaptation, storytelling, and consistent execution.

My experience spans multiple industries including:

- Fintech
- Trading & Forex Technology
- Beauty & Lifestyle

- AI Sports Technology
- Consumer Technology

WHAT MAKES ME DIFFERENT?

Many creators focus on making content.

I focus on understanding people.

Before creating content, I study:

- Audience behaviour
- Emotional triggers
- Trends
- Engagement pattern
- Content structures

My goal is not simply to create content.

My goal is to create content people care enough to engage with.

WHY STARTUPS LIKE WORKING WITH ME

I understand startup environments.

I understand that growth requires experimentation, consistency, and adaptation.

I have worked directly with founders and small teams, helping them build visibility while operating with limited resources.

I am also actively involved in a university environment, which gives me direct access to emerging trends, youth culture, and audience behaviour that many brands struggle to understand.

MY CONTENT FRAMEWORK

STEP 1 — Understand The Product

Before creating content, I learn:

- What the product does
- Why it exists
- What problem it solves

STEP 2 — Understand The Audience

I identify:

- Age group
- Interests
- Behaviour
- Consumption habits
- Online culture

STEP 3 — Research Winning Content

I analyse:

- Viral videos
- Trending sounds
- High-performing creators
- Audience reactions

STEP 4 — Adapt & Create

I do not copy content.

I study successful structures and adapt them to fit the brand's audience and objectives.

STEP 5 — Measure Results

After publishing, I monitor:

- Views
- Watch Time
- Shares
- Saves
- Comments

- Follower Growth

I then use those insights to improve future content.

CASE STUDY: PAY2VIEW → CLUSTER CLEAR

About The Brand

Pay2View was a UK-based startup focused on expanding into the Nigerian market through user-driven engagement and digital visibility.

Following a strategic business transition and company rebranding, Pay2View later became Cluster Clear.

My Role

Content Creator & Growth Strategist

December 2024 – March 2026

Strategy

- Trend adaptation
- Audience-focused storytelling
- Localized Nigerian content
- Organic engagement growth
- Brand awareness campaigns

Note On Rebranding

Following the company's transition from Pay2View to Cluster Clear, a significant portion of the original content library was archived or made private as part of the rebranding process.

As a result, many of the videos responsible for generating these results are no longer publicly visible on the current account.
